Here's How To Properly Wear Badges---- Here's How Not To

These pictures show how—and how not—to wear badges in the Y-12 area. Pictures No. 1 and No. 2 are of employees who are wearing their badges properly on passing through the portals—in full view on outer garments where they can be easily seen by

guards. Pictures No. 3 and No. 4 are of employees who show their badges only when passing through the portals and who carry them either in pockets or in purses or billfolds. Badges should be displayed openly at all times while an employee is in the plant area.

Proper Wearing Of Badges Urged Of All Employees

Cooperation of every Y-12 employee in one of the most important phases of maintaining the vital security program of the plant—proper display of badges at all times while in the plant area—is urged by the Security Office of the Y-12 Plant Protection Department.

For the protection of the employee himself and the plant security program; it is necessary that every employee or visitor to the area be properly identified at all times. Rigid controls are maintained over the manufacture and issuance of badges to employees and it is required that the employee correctly display his credentials every minute he is in the plant area.

Security Regulations Strict

The security regulations of Y-12 are being maintained on practically the same basis as in wartime, although certain revisions have been made to bring the provisions up to date from time to time. The strict maintenance of those regulations results in protection against possible sabotage, malicious mischief, leakage of information or other threats to the security of the plant or the country.

It is proposed that all employees wear their badges on the lapel of any outer garment so that they may easily be seen by any member of the Guard Department. When this is not feasible, the badge may be worn on a belt, this being permissible in the case of women employees wearing dresses or blouses of thin material that might be damaged by constant pinning of badges to the material. The practice of wearing of badges in obscure positions, carrying them in pockets, billfolds or purses is discouraged as it defeats the purpose of the security regulations requiring display of badges at all times by employees within the plant area.

Duties of Supervisors

It is the responsibility of Supervision to see that all employees are properly instructed in how to wear their badges. Supervisors and employees in all departments also should check the identity of anyone in their work area who is not

FIRE PREVENTION LESSONS ARE TAUGHT

Response Is Generous In Chest Campaign

Y-12 employees responded generously last week as the 1947 Community Chest drive was opened in the plant. Approximately \$1,100 had been subscribed at press time of The Y-12 Bulletin last Friday with only a small proportion of the general drive pledges being recorded.

Early returns showed that Dept. A12A, Janitors contributed 100 per cent to the Chest fund.

Of the money received so far, about \$700 was in advance gifts with the remainder being cash payments and pledges made in the general drive.

Community Chest pledge cards have been widely distributed in the plant and all employees who have not signed and returned the cards are asked to do at their earliest convenience. It again is stressed that no payroll deductions will be made for Chest pledges.

Funds contributed by wearers of the red feathers, signifying donors to the Chest, are aiding to support the Boy and Girl Scouts of Oak Ridge, the indigent of the city, needy persons in need of medical attention and the hot lunch program for needy school children.

A Message From The President Of The Union Carbide And Carbon Corp.

Let Us All Cooperate In Saving Food

Let us wholeheartedly cooperate with our Government in saving food. The thrift of the American people has contributed substantially to the building and maintenance of our system of free competitive enterprise, which is the bulwark of democracy. This same thrift extended to the saving of food will contribute to freedom from want and oppression of other segments of the human race.

The saving of food at this crucial period will benefit all humanity, including ourselves.

F. H. HAGGERSON

October 10, 1947

KITCHENS ARE PLANNED

Welcome news to Y-12 women employees living in certain Oak Ridge dormitories is contained in the Department of Public Work's announcement that kitchen facilities will be installed in Carlisle, Batavia, Beacon, Beaumont and Bayonne Halls. The construction work, estimated to take 75 days, will start shortly after October 29.

APPLIANCE WARNING ISSUED

Warnings to local residents against the use of heating appliances other than standard installations has been sounded by the Oak Ridge Department of Public Works. It is pointed out that danger exists in violating regulations which prohibit use of electrical devices rated more than 600 watts.

Demonstrations Show How Blazes Battled

The many vital lessons on how to prevent fires and combat them if they do break out that were brought home to Y-12 employees during observance of Fire Prevention Week October 5 through 11 is fully expected to improve the already high standing of the plant in this phase of safety work, according to members of the Y-12 Fire Department in charge of conducting the intensive educational campaign staged during the week.

Elaborate Program Staged

Featured by demonstrations of various fire fighting methods and a parade on Wednesday and Thursday, the Fire Prevention Week program also included short talks at portals and in the cafeteria, building evacuation and hose house drills, distribution of posters throughout the plant, showing of moving pictures and delivery of short talk at all safety and fire prevention meetings in the plant during the week and the stamping of all plant mail—all with the same aim, to impress the importance of eliminating all fire hazards and thereby preventing blazes that might prove costly in loss of life and property. A display in the cafeteria showing fire hazards, equipment and first aid apparatus

(Continued on Page 3)

Fire Department Gives Talks And Parade To Feature Prevention Week

Y-12 Fire Dept. Capt. W. O. Elam is shown in the picture to the left delivering a short talk on fire prevention in the cafeteria last week during observance

of Fire Prevention Week. The display by the Fire Department on fire hazards, fire fighting and first aid equipment also is shown. The picture at the right

shows the parade staged by the Fire Department as a feature of Fire Prevention Week and a portion of the large crowd of employees who witnessed the procession.

Attendance Perfect In Four Departments

Four Y-12 departments joined the perfect attendance ranks for the week ending October 5, two of them attaining that mark for the fourth straight week. The plant absentee mark for that week was 3.4 per cent, 0.1 per cent higher than the preceding week.

In the major league of departments with more than 50 employees, Dept. A12R, Cafeteria and Canteen, passed its fourth week without an absentee mark to hold first place. In second place in this league was Dept. A16N, Maintenance Shops, which jumped from fifth place the previous week. In third place was Dept. A14N, Electrical Equipment Repair and Maintenance, which rose from 15th place the preceding place.

Three departments in the minor league, composed of groups with from 15 to 49 employees, achieved the perfect attendance mark for the week ending October 5. Dept. A12T, Garage Repair Shop, stayed in this class for the fourth week in a row while Dept. A12L, Employment, was in the perfect attendance class for the second straight week. Dept. A13T, Transportation, rose from second place the previous week to join the other two groups in the spotless record bracket.

In second place in the minor league was Dept. A12A, Janitors, which jumped from 10th place the preceding week. Third place was held by Dept. A12J, Industrial Services, which was in eighth place the previous week.

The complete plant absentee mark by departments follows:

MAJOR LEAGUE More than 50 Employees			
Dept.	Absent	Percentage	Standing
A12R	0.0	10-5-47	1
A16N	1.4	2	5
A14N	2.0	3	15
B13L	2.1	4	12
A13N	2.30	5	10
M13B	2.34	6	9
H12L	2.50	7	8
A12M	2.50	7	3
A17N	3.0	8	13
A12G	3.08	9	4
A14J	3.13	10	2
M12P	3.6	11	11
H12E	4.0	12	6
B12L	4.65	13	16
M15C	4.73	14	7
A12W	5.5	15	14
A12S	6.0	16	17
H12D	6.8	17	18
M13C	10.0	18	19

Group absentee percentage was 3.4 per cent, 0.2 per cent lower than the preceding week.

MINOR LEAGUE 15-49 Employees			
Dept.	Absent	Percentage	Standing
A12T	0.0	10-5-47	1
A12L	0.0	1	1
A13T	0.0	1	2
A12A	1.0	2	10
A12J	2.7	3	8
M12M	3.2	4	6
B12A	3.3	5	5
A12N	4.1	6	3
A12D	5.1	7	4
A15N	5.3	8	9
M12S	5.9	9	11
A19N	6.3	10	12
M14C	—	—	7

Group absentee percentage was 3.0 per cent, 1.1 per cent higher than the preceding week.

The plant average for the week ending October 5, 1947, was 3.4 per cent, 0.1 per cent higher than the preceding week.

Two Y-12 families reported births at the Oak Ridge Hospital last week. They were Mr. and Mrs. Charlie Clayton Bridges, a son, October 4; Mr. and Mrs. Paul U. Gipson, a daughter, October 6.

Alpha Phi Chapter Of Beta Sigma Phi Group Meets

One of the most popular women's organizations in Oak Ridge is the Beta Sigma Phi social and cultural sorority for business women. Several Y-12 employees are active in the Alpha Phi chapter of the sorority, a group of members of which is shown above at a dinner meeting at Edgewood restaurant October 2. Standing in the rear, left to right, are Sara Lee Peters, Kathleen Presley, Clodine Brewer and Imogene Odom, the latter a former employee of Y-12. Sitting behind the flowers in center-rear is Dorothy Eaves, also a former Y-12 employee. At the table to the left are Lois Buckner, Mariam Hedrick, Edna Lee Finley, Elizabeth Cook, a Y-12 employee; and Loretta Dwyer. Seated at the table to the right are Helen Matthews, of Y-12; Polly Ellison, Mabel Tyer, of Y12; Sue Shaw and Lorene Lively.

H. S. Sanders, Dept. A15J and family attended the U. T. Duke game in Knoxville . . . Joyce Wendolkowski and husband visited her parents in Benham, Ky., recently.

Employees vacationing in Dept. A15N include W. C. Munsey and B. P. Hagood . . . Fred Marbel and family have returned from a Florida vacation . . . Kenneth McKarty is back on the job after a week's illness . . . Virginia Pennington and her husband from Chicago, Ill., were the week-end guests of Margaret Hasting, Dept. M12B, and James H. Graham, Dept. A15N. Virginia formerly worked at Y-12.

Oral C. Hartman, Dept. A12M, took a motor tour through Georgia, North Carolina, the Smokies and South Carolina.

Sympathy is extended to Leo Caldwell, Dept. H12L, whose father died in Dig Creek, Miss. . . . George Banic returned Monday from a one-week vacation.

P. R. Tippy, Dept. A12M, is taking a one-week vacation . . . The department extends sympathy to Verna Peckman whose grandmother died recently.

C. B. Newman, Dept. A14N, has returned from a one-week vacation . . . William Kinkleman spent a

recent vacation in New York City . . . H. G. Bingham is spending a two-week vacation in Florida . . . Joseph Kramer has returned from a two-week vacation.

Vacationing recently in Dept. B-12L was Edwina Shaffer who visited her home in Wythville, Va. . . . Anna Ruth Roberson spent her vacation in Louisville, Ky., and at her home in Algood, Tenn. . . . Erlene Smith spent her vacation in Pennsylvania . . . Mary Lee Cox is vacationing in Miami, Fla. . . . Mary Alice Roberson is vacationing in New York City . . . Bill Freels is vacationing in Asheville, N. C., and other points in the state. . . . Juanita Moore spent a long weekend in Jackson, Miss., and at her home in Carthage, Miss. . . . Ross Jamison and his wife Alice, are being visited by her mother, Mrs. A. Norris . . . Daisy Brogan, Dept. H12L, was visited by her mother, Mrs. J. H. Brogan, of Middlesboro, Ky. . . . Duncan Lang, Dept. B12L Analytical Superintendent; Chick Burnette and Nick Zabenco have returned to work after being ill.

A quartet of Y-12 girls, Nell Nabors, Edwina Schaffer, Martha McComb and Daisy Brogan adorned the Jaycees' float in the Oak Ridge Fire Prevention Week parade last Thursday night.

Evans Means reports that the squirrel season might as well end right now as far as Clayton Hatmaker, Dept. A14N is concerned as he bagged but one squirrel after hunting most of last Saturday and Sunday.

Powel Jewell, former Y-12 employee in Dept. H12D, now is professor of mathematics at Tennessee Polytechnic Institute, Cookeville, Tenn.

G. A. Westerdahl, of Dept. H12D, has returned from a two-week vacation spent in Arizona and Old Mexico. He was accompanied on the trip by Dr. M. W. Bredecamp, formerly of Y-12 and now connected with the Michigan School of Mines at Holton, Mich. The first week was spent at Westerdahl's camp in Arizona and during the last week of the trip the pair investigated mineral deposits in Mexico.

Ruth Dolinger, Dept. A12L, is vacationing at her home in Abingdon, Va.

Sympathy is extended to Reba Justice, Dept. H12L, whose grandfather, William Justice, who was 94 years old, died recently and was buried October 8.

The guy who goes around with a chip on his shoulder shows he has a larger piece of wood above his shoulders.

Y-12 Cafeteria Adopts Food Savings Plan

In a move to support the food conservation program urged by President Truman, meatless Tuesdays and eggless and poultryless Thursdays will be observed in Y-12 dining rooms, it has been announced by Cafeterias and Canteens Superintendent George J. McNamee.

Tasty and nutritious substitutes for meat, eggs and poultry will be served in the Y-12 cafeterias and canteen, according to the superintendent.

In line with the President's proposal that bread be served sparingly with meals, McNamee has urged that all employees who purchase bread orders take only what they need and not leave any on their plates. The same idea goes for other food ordered, he suggests.

Y-12 Folk Take Part In Show By Playhouse

Tickets for the popular Broadway play, "You Can't Take It With You," the season's first production of the Oak Ridge Community Playhouse, now are on sale at the Cliff Brill insurance office in the Arcade at Townsite. The show will be staged this Thursday, Friday and Saturday in the high school auditorium with each performance starting at 8:30 p.m.

The play, which had a three-year run and was made into a movie starring Lionel Barrymore, is a story of members of the Sycamore family who develop amusing idiosyncrasies while trying to carry out a design of living based on Gramn Vanderhof's philosophy that — as you can't take it with you, one may as well have a lot of fun out of life.

The production is being staged-managed by Evans Means of Y-12, Dept. A14N, who acted in the same capacity for the first amateur release of the play in St. Louis in 1939. Mrs. Mary Marshall Lockhart, wife of Y-12 employee George Lockhart, plays the part of Rhea the maid in "You Can't Take It With You" and Mrs. Martha Ross, wife of Don Ross, another employee, is manager of make-up for the show.

Hospital List

Patients in the Oak Ridge Hospital last week included nine Y-12 employees. They were John H. Rohland, Dept. A-12S; Edwin J. Bittle, Dept. H12E; Walter S. McDowell, Dept. A12G; George F. Leichenring, Dept. A12W; Laura Kennedy, Dept. A19N; Rogers Hibbs, Dept. B13L; Claude B. Carter, Dept. A12S; Dessie Davis, Dept. H12L; and Tonnie B. Os-

WORLD'S OLDEST SYMBOL

The oldest symbol representing a word is "&," known as the ampersand. Originally it was one of the 5,000 signs in the world's first shorthand system which was invented in 63 B. C. by Marcus Tiro in Rome and was used for 1,000 years. The "&" is the only one of these signs to have survived and is used today as the symbol for the word "and" in several hundred languages.

Group Leaves For Safety Meet

A group of Y-12 and K-25 Carbide employees are shown just before taking off from Knoxville October 5 for Chicago where they attended the National Safety Congress October 5-11. Left to right are Y-12 Fire Chief J. W. Hughey, Y-12 Chief Safety Engineer G. C. Henderson, K-25 Division Superintendent of Test and Inspection A. P. Dunlap, Y-12 Superintendent of Plant Protection Thomas A. McKenzie and K-25 Assistant Superintendent of Process Division J. A. Marshall.

Demonstrations Show How Blazes Battled

(Continued from Page 1)
also proved of interest.

Y-12 Fire Chief J. W. Hughey and Assistant Chief J. E. Lain are high in their praise of the cooperation and interest shown by employees in the Fire Prevention Week program, not only last week but during the entire year. This type of cooperation can be of great aid to the Fire Department in cutting fire losses and improving its fire prevention program that in 1946 was rated sixth among the industrial plants in the country that participated in a contest conducted by the National Fire Protection Association and the National Board of Underwriters.

Despite threatening weather, large groups of spectators turned out for the parade and demonstrations staged in front of the cafeteria last Wednesday and Thursday. Assistant Chief Lain was in charge of and described various phases of the demonstration while Capt. C. S. Huffman was parade marshal. Fire fighting equipment of Y-12 and auxiliary vehicles were decorated with posters and streamers for the procession which proceeded up and down First St. and halted in front of the cafeteria.

The spectators were particularly interested in the demonstration of use of various types of fire extinguishers with Assistant Chief Lain pointing out the details of each over a public address system.

One of the features of the demonstration was an exhibition of protective asbestos clothing used by fire fighters as a safeguard against intense heat when performing rescue work. Firefighter J. C. Fox wore the outfit and rambled around and through licking flames without injury during the show. Other Fire Department members in the demonstration included Capt. F. L. Remine, who was in charge of the activities, Lieut. E. F. Greer, Lieut. J. M. Enochs and Firefighter J. C. Hastings.

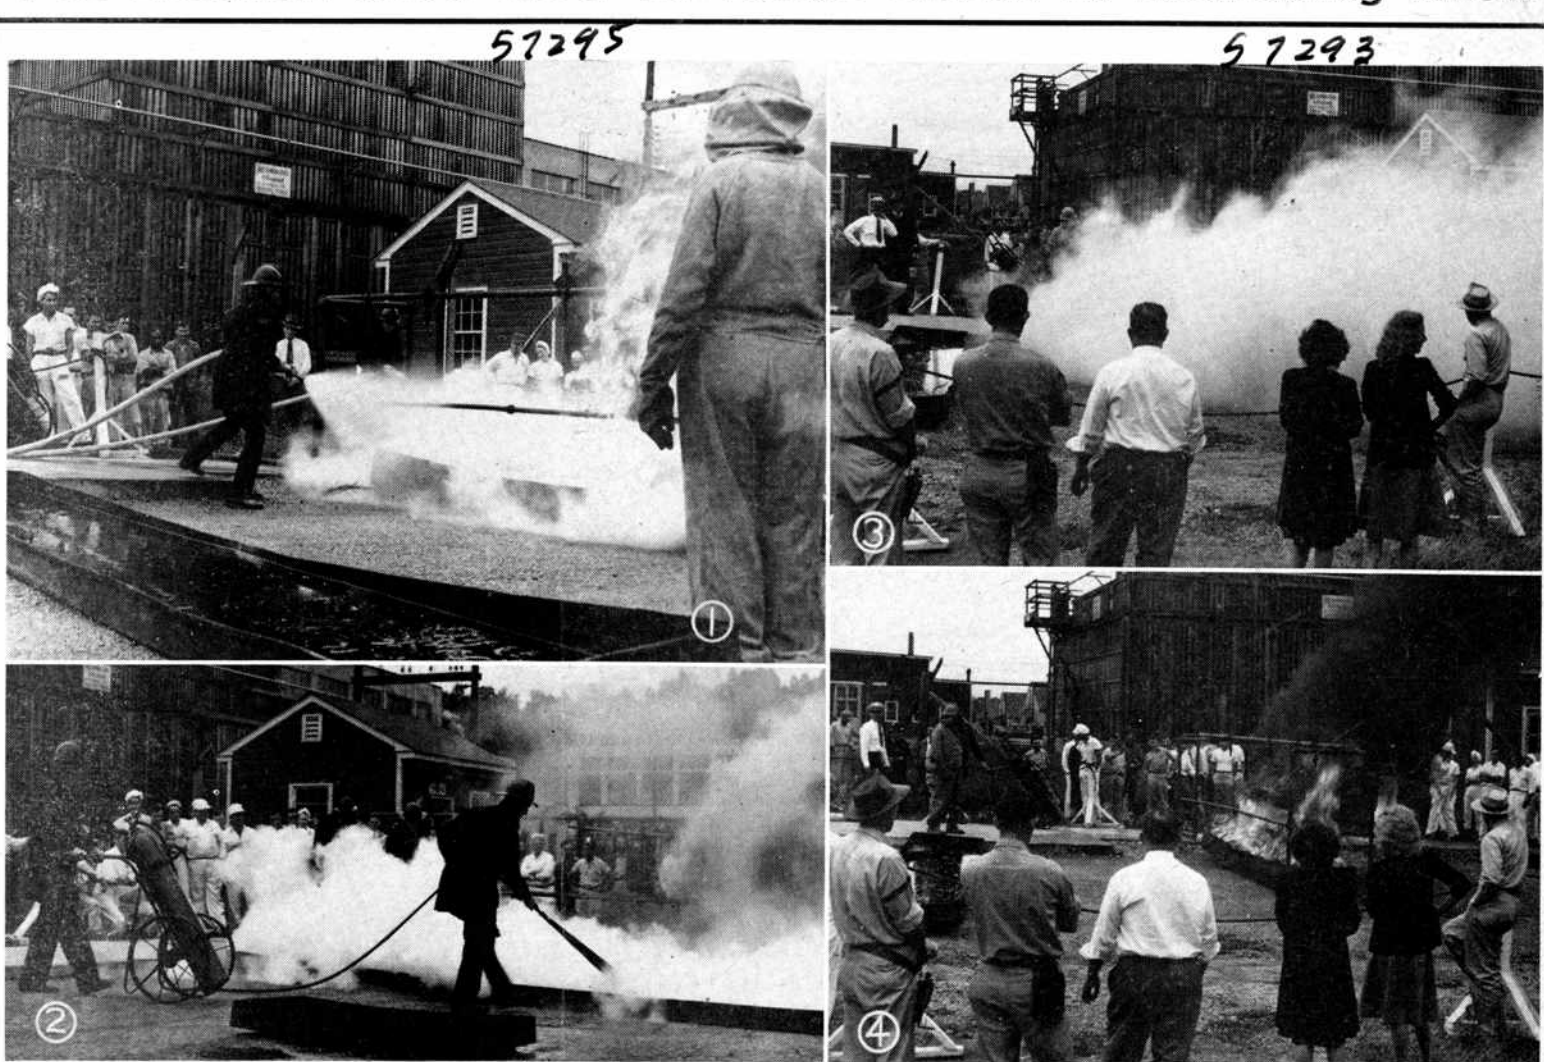

Fire extinguishers and equipment used in the demonstration included the soda and acid type, used on common type fires that quickly quenched a blaze in a pile of rubbish; a metal container with hinged top held by a fusible link that melted and allowed the lid to fall when a fire started in the container; a CO-2 extinguisher that smothered a gasoline blaze by cutting off the oxygen supply; and a small one-quart size CTC extinguisher that put out a flammable liquid fire after water had proven futile. The workings of a waterfog sprinkling system set off by heat also was shown; as was the action of two waterfog nozzles on a regular hose line.

Fire Dept. Capt. W. O. Elam was in charge of the speaking program during Fire Prevention Week and made frequent short talks before different groups of employees stressing the danger of fire hazards and how to avoid them. He pointed out that 99 per cent of all fires are avoidable and that during 1946 a total of 11,000 persons were killed, 20,000 others were injured and \$561,000,000 worth of damage was caused by fire.

Fire Capt. Dave Turner had charge of poster distribution throughout the plant and Capt. H. W. Krouse directed the hose house drills, staged during the week. The building evacuation drill was held in Bldg. 9704-2 and also was staged under direction of Captain Krouse.

That the Y-12 fire prevention program is not a one-week observance is shown by the fact that a centralized general plan now is being set up in the plant to combat fires and other emergencies. The plan includes organization of auxiliary fire fighting and emergency crews and for the training of all employees in orderly evacuation of buildings or areas in cases of emergencies. This plan, with the constant watchfulness of all employees for any conditions that might develop into fire hazards, should result in Y-12 being an even more pleasant and safe place in which to work, according to Chief Hughey.

Y-12 Firemen Show How To Battle Blazes In Interesting Show

Various methods used by the Y-12 Fire Department in combatting blazes are shown in the pictures above. No. 1—Waterfog nozzles on a regular hose line extinguish oil fire with the spray keeping oxygen away from the blaze. A straight stream would fan the fire instead of putting it out. No. 2—A pair of 50-pound size CO-2 extinguishers smother a flammable liquid fire. The extinguishers are filled with carbon dioxide gas under 850-pound pressure that will expand to 450 times its stored volume when released.

The gas is a non-conductor of electricity and also used on electrical fires. No. 3 and No. 4—A fire is started under a waterfog sprinkler system that begins operations automatically when the heat melts a fuse on the sprinkler head. How the waterfog smother the blaze is shown in No. 4. The waterfog sprinklers in buildings will either extinguish a blaze or control it until the Fire Department arrives.

Dixieland Ramblers Concert Is Set For Wednesday Night

Bill Ward and his Dixieland Ramblers, a string orchestra and vocal group, will be presented in a concert at 8 o'clock Wednesday night in the Jefferson Junior High School auditorium under auspices of the Oak Ridge Junior Chamber of Commerce.

Leader of the musical organization is William B. Ward, a Y-12 employee in Dept. M14C. He plays the guitar and sings and others in the troupe include J. V. Walters and Raymond Long, both of Oak Ridge, and three sisters; Wanda, Elizabeth and Alice Miles, of Wind Rock, near Oliver Springs.

13,537 Examined In X-Ray Survey

The Oak Ridge free chest X-Ray survey, which ended October 3, disclosed among the 13,537 examinations, 108 cases of tuberculosis and 450 cases of other ailments of the chest. In addition 1,870 persons were called back for a recheck.

The Oak Ridge Public Health Department will follow up the positive cases which were disclosed in the survey conducted under the supervision of Drs. George and Muriel Graham of the U. S. Public Health Department, of Washington, D. C., and sponsored by the Oak Ridge Health Department and other city groups.

NURSERY RATES REDUCED

Reductions in nursery school rates have been announced by Mrs. Helen Lehman, childhood education coordinator for AEC, and will go into effect tomorrow when the Newkirk Center opens. Weekly care of one child has been reduced to \$5, to \$3 for a second child in the same family and \$2 for a third child. The rate for one day's care with lunch is now \$1.50.

If you think of yourself first, others will think of you last.

"Rumor And Humor"

The Bulletin Institutes Column And Invites Your Contribution

This column is being launched by The Y-12 Bulletin as a means of combatting the evils of our strongest competitor in the news field—the Rumor Factory. The title "Rumor And Humor" seems appropriate because after almost five years of operations in the Y-12 Plant these elusive twins still are hard to tell apart.

Can they be separated?

(EDITOR'S NOTE: Your contribution to this column will be cheerfully accepted. Tell us the latest rumor—just write it out and put in the plant mail, addressed to The Y-12 Bulletin, Bldg. 9701-1.)

Here's A Rumor

Joe: "I understand a general wage reduction of 10 per cent is contemplated in the Y-12 plant."

Jack: "Bud, you're 'way behind the times. The reduction is 20 per cent and already is being put into effect."

Here's The Humor

If the rumor is true that the grocery stores in Oak Ridge have cut the price of meat in half and are giving away fruits and vegetables and you can now get a two-pants suit for the price of one pair of pants, we can understand why the Y-12 rumor might sound logical; but contrary to the rules of this kind of logic "tain't so."

EDITOR'S INVESTIGATION: A handful of employees (not production, maintenance or technical) were transferred across the board on May 4 from Tennessee Eastman Corp. to Carbide and Carbon Chemicals Corp. to perform work on jobs not yet evaluated. This transfer across the board was made as a temporary means of holding these employees on the payroll and preserving their rights until such time as job evaluations could be completed. Now, the evaluations on these jobs having been completed, these employees are being offered the new jobs at the standard rate for the type of work they are performing. If the new job is a lower rated job than their former job and involves a cut in pay or does not utilize the employee at his maximum capacity, every effort will be made to relocate the employee in another department; and, failing in this, the Employment Department will assist in every way to place the employee in a satisfactory job outside of Y-12. These employees will be eligible for reduction in force benefits the same as they would have been on May 4 had they decided not to accept Carbide job offers.

Carbide Wives Meet Tomorrow

All wives of Y-12 employees have been extended an invitation to attend the meeting of the Carbide Wives tomorrow night at 7:30 o'clock in the East Lounge of Ridge Hall. The Carbide Wives are anxious to obtain as many members as possible among Y-12 wives, it was stated by Mrs. H. B. Bowen, club treasurer.

Hostesses for the occasion will be Mrs. J. A. Martin, Mrs. Charles Schmitt, Mrs. Joe Dykstra, Mrs. Carl Jenkins, Mrs. C. W. Loveland and Mrs. Ruth Wardley. Refreshments will be served following the bridge sessions.

Landlady, to new boarder: "Yes, your room has a genuine feather bed."

Boarder (next morning): "Madam, will you please come upstairs and help me find the feather?"

Proper Wearing Of Badges Urged Of All Employees

(Continued from Page 1)

personally known to them; this step being a precaution against any person gaining access to areas to which they are not properly assigned. Plant security regulations provide for special badges for certain restricted areas and it is the duty of Supervision and the employees in those areas to be sure that all persons in such areas are properly identified.

Employees also are urged to exercise extreme care not to misplace or lose their badges. Loss of a badge poses another threat to plant security as it possibly could provide means of entrance to the Clinton Engineer Works area or the plant itself by an unauthorized person. However, demand for badge replacements in Y-12 is reported to be steadily declining.

Should Report Lost Badges

Loss of a badge should immediately be reported to the Badge and Pass Office, where arrangements for a replacement can be made. Temporary passes are issued employees who lose their badges after they are properly identified by their Supervisor. The Badge and Pass Office at the North Portal is open Mondays through Fridays from 8 a.m. to 4:30 p.m. Employees who have lost or forgotten their badges and who have to report for work at other hours may telephone 7283 and a member of the Guard Department will be sent from headquarters to issue the required passes.

AIT AGAIN HONORED

The American Industrial Transit, operators of the Oak Ridge bus system, will receive its second national safety award at a bus operators meeting to be held in the near future at Atlantic City, N.J. The award is based on a "best in the nation" record for maintenance and efficiency.

Ideas are funny little things. They won't work unless you do.

15 Bouts Set On First Boxing Show For Oak Ridge Youngsters

"In the red corner is Kayo Young Fry from Memphis, Tenn., and his opponent in the blue corner is that mighty mite, Dynamite Bobby Sox, from Youngstown, Ohio," will be heard Friday night at the high school gymnasium as Leo Dalton announces the matches in the Oak Ridge Boxing Academy's first show of the season.

First Bout At 8 O'Clock

The first match of the 15-bout card will get underway at 8 o'clock, it was announced by Nelson Bethea, dean of the Academy's eight-man coaching staff. Ring officials named for the 15 bouts of three one-minute rounds are Bethea of Y-12, referee; Leo Dalton of K-25, announcer; Loren Wetzel of AEC, timekeeper; and Harold Mate of Monsanto, F. Phillip Collett of K-25, and Marc Sims of Y-12 Bulletin, judges.

Many proud Y-12 dads have enrolled their young hopefuls in the academy boxing classes and a good percentage of these youngsters will don the big gloves and start swinging at the bell during the show as they have shown sufficient progress to be tossed into the squared circle for action.

Receipts To Equip Class

Admission prices of 10¢ for children and 25¢ for grown-ups will prevail and all proceeds will be used to better equip the boxing classes which are free to Oak Ridge youngsters between four and 13 years old.

The first day enrollment in the academy was so great that two new instructors, Al Burris and Bill Jennings, of K-25, were added, forming an eight-man staff to handle the 130 students already registered and those who enrolled last Saturday. Classes will not be held next Saturday morning because of the boxing show the night before, but will be resumed October 25 and at the high school gymnasium.

National Guard Engineering Unit Seeks Y-12 Recruits

Any Y-12 employee who has served in the Army may enlist in the newly organized 194th National Guard Engineer Combat Battalion at the rank he held at time of discharge, it was stated by the organization's commanding officer, Lieut. Col. William T. Sergeant.

Training pay scales for weekly drill periods range from \$2.50 for privates to \$5.50 for first sergeants and the training periods are from 7:30 p.m. to 9:30 p.m. each Tuesday at Lakewood Hall, located near by the AEC Patrol in West Village. The same pay scales prevail for non-veterans who must be between 17 and 34 years old to enlist.

The Oak Ridge unit is participating in a nation-wide National Guard recruitment program and further information regarding details of enlisting in the 194th may be obtained at Lakewood Hall on Tuesday night or phoning Colonel Sergeant at 5-1781 or Captain A. V. R. Wulff at 5-5764.

"B" Portal Closes Effective Today

Effective at 4:30 p.m., Tuesday, October 16, the "B" Portal into Area 3 will be permanently closed, it has been announced by the Y-12 Guard Department. Entrance into Area 3 will be made through the CP Portal for pedestrians and the CV Portal for vehicles.

The rugged individualism shown in the picture of the two young fry students of the Oak Ridge Boxing Academy again will be demonstrated to the public in the school's show Friday night at the high school gymnasium. Young Ted Hays, left, and Fellar Rucker, his opponent, who are pictured in one of last year's boxing matches, will both appear on the Friday night bill.

Les Cook Captained Y-12 Golf Team In Tournament

Les Cook, runner-up in the championship flight of the recent Carbide golf tournament, was selected to lead a Y-12 team of eight top golfers and four alternates in an 18-hole medal play battle last Saturday at Lenoir City with K-25, Monsanto and Roane-Anderson for the team championship of Oak Ridge.

Composing Y-12's first team was Floyd Ludwig, Emil Vincens, Ed Cain, Doug Lavers, Harold J. Ratjon, Bill Reynolds, Larry Koons and Les Cook. The alternates were Clyde Bowles, L. H. Barker, H. D. Duncan and Dr. C. E. Larson.

Christmas Mailing Schedule Given

Dates for mailing of Christmas parcels to members of the armed forces overseas will be October 15 to November 15, it was announced by Oak Ridge Postmaster George E. Bowling.

The definition of "armed forces overseas" includes personnel of the United States armed forces and authorized civilians employed overseas who receive their mail through an APO or Fleet Post Office in care of the Postmaster at New York, San Francisco, Miami, New Orleans or Seattle. Detailed information regarding mailing regulations can be obtained by calling the Oak Ridge Post Office, phone 5-7844.

PAVING ALMOST COMPLETED

Paving operations on the Oak Ridge Turnpike, which began last May will be completed on or about October 15, fifteen days ahead of schedule, city officials stated. Work now in progress on 22 parking lots is expected to be finished in less than 60 days.

SPORT NEWS IN Y-12

Tommy Wright, Former Y-12er Now Golf Pro, Will Play Match At Ridge Club Opening Saturday

Tommy Wright, of Knoxville, a former Y-12 employee and now nationally known professional golfer, will headline opening day ceremonies at the brand-new Oak Ridge Golf Club this Saturday, it was announced by Jess Herndon, Superintendent of the Chemical Division and a member of the club's program committee.

Wright and Beasley to Play Match

Wright and Ballard Beasley, the club's recently employed professional and greenskeeper from Chattanooga, will shoot an 18-hole exhibition match Saturday afternoon, to which the Oak Ridge public is invited. Local golfers also are invited to participate in an all day hole-in-one tournament which starts at 9 a.m. and finishes at 4:30 p.m.

Signs will be posted on the Oak Ridge Turnpike west of the city directing visitors to the opening day ceremonies to the scene of activities.

Credit for obtaining Tommy Wright to appear here as the star performer on the opening day program goes to Doug Lavers of Y-12 who was superintendent of the department in which Wright worked. Lavers is secretary of the Oak Ridge Golf Club. Wright joined the pro ranks a year after winning the Tennessee state amateur golf championship in 1936 and is now professional at the new Deane Hill Country Club, of Knoxville. This season on a tour of the big-time golf tournament circuit, Wright shot a number of brilliant rounds and several times placed among the top money winners.

Members Perform Labor on Course

The Oak Ridge Golf Club was pioneered by most of its present 225 members who began work last June with picks, axes, grub hoes and bulldozers on a raw location situated off the Turnpike west of the Oak Ridge Sportsman's Club. When the course is opened officially this Saturday playing will be on temporary but well-conditioned greens of a sporty nine-hole course. Permanent greens have all been shaped and prepared for seeding.

A temporary clubhouse has been constructed of four former hutment buildings. Two more of these structures will be added later to enlarge the clubhouse.

TOMMY WRIGHT

Y-12 members of the club's board of directors are Jim Kirk, Doug Lavers, H. D. Duncan and Dave Harrigan. Lavers is secretary, Harrigan treasurer, and A. J. Kessing of K-25 in the club's president. Many other Y-12 employees are members of the club.

Rippers, Bums Tied In Plant Loop Race

The Rippers ripped the hide off the Wolves in winning three straight games last Thursday night at the Grove alleys and skyrocketed from fifth to a first place tie with the Bums in the Plant Bowling League. The Comets two wins from the Bums and the Chemicals two losses to the Knot Holes left those two teams deadlocked in the runnerup positions.

C. N. Rucker, of the Wood Butchers marked up a 245 which gave him top honors for the night for a single game handicap score. Pletz, Comets ace, topped for a single game scratch with 205, followed by Groppe of the Rippers with a 203. The Rippers hit team high for a single scratch game with 856, and tops for the three-game series handicap score with 1,043.

Feudin' and a fightin' waxed hot and heavy in the D Area Bowling League again last Tuesday night at the Jefferson alleys for the runner-up spots to the loop-leading Calutrons. The Strikers struck hard and fast to take four points from the Splinters and vaulted from sixth to second place. The Termites dropped three to the Calutrons but clung to a deadlock for third and fourth places with the Old Men on eight wins and eight losses.

The Strikers rolled the three-game series high handicap score of 3,023, a team high for a single game handicap with 1,100, topped all teams for a single scratch game with 893, and also took first honors in a three-game scratch score with 2,402. Brundage led the Strikers in chalking firsts with 221 for a scratch game and 272 for a handicap. Kappelman of the Calutrons rolled 'em consistently with 188, 188 and 180 for a 556 total and a 658 handicap aggregate.

League standings follow:

PLANT LEAGUE					
Team	W	L	Team	W	L
Bums	11	4	L Jacks	9	6
Rippers	11	4	W. Butchers	7	8
Comets	10	5	Knot Holes	5	10
Chemicals	10	5	Wolves	4	11
B. Busters	9	6	Big Uns	3	12
Bldg. 9212	9	6	One-91	3	12
D AREA LEAGUE					
Team	W	L	Team	W	L
Calutrons	14	2	Splinters	7	9
Strikers	9	7	Overheads	7	9
Termites	8	8	Scotties	7	9
Old Men	8	8	Woodchoppers	4	12

Y-12 TAKES ANOTHER MATCH IN TEE MEET

The Y-12 Bulletin story last week of the finals in the Carbide handicap golf tourney told of George Mitchel's four and two win over Charlie Williams for fifth flight honors but failed to state the winner was a Y-12 man. That, he definitely is. George Mitchel is Superintendent of Dept. M13B. Mitchel's victory gave Y-12 four winners in five matches in the handicap finals, the others being Floyd Ludwig, H. J. Ratjen, and Dave Harrigan.

Women Bowlers Of Y-12 In Four-Way League Tie

Y-12's feminine bowlers had an off night last Thursday at the Grove alleys, lost two games to Monsanto, and ended up in a quadruple tie with that team, Fairchild and Morat for the runner-up spot to the loop leading Roane-Anderson team in the Oak Ridge Womens' City Bowling League.

Y-12 won the first game 701-683, but slumped to lose the next two on scores of 642-726, and 637-697 for three-game total of 1,980 for Y-12 and 2,106 for Monsanto. Marge Solomon was high scorer for the Y-12ers with games of 172, 166 and 137 for a 475 aggregate.

League standing follows:

Team	W	L	Team	W	L
R-A	9	3	K-25	6	6
Y-12	8	4	Jeff Alleys	5	7
Fairchild	8	4	G. Merchants	5	7
Morat	8	4	Ford Motors	3	9
Monsanto	8	4	P. V. Mcchnts	3	9
O. D. Drug	7	5	Laundry	2	10

V. F. W. Post Seeks 750 Membership

The current campaign of the V. F. W. Post No. 6531 of Oak Ridge to bring its membership to 500 being within 41 of the quota set by the state department, the post decided at its last Tuesday night meeting to raise its sights to 750, it was announced by W. O. Elam, Senior Vice Commander and a captain in the Y-12 Fire Department.

The post will hold an annual charity ball at Grove Hall Friday and the Illusioners, a Knoxville orchestra, will furnish music for the dancing from 9 p.m. to 1 a.m.

Y-12 Tag Gridders Play Twice In Week

Y-12's blue and gold garbed tag footballers waxed hot and cold in the two opening games last week in the CEW Touch Football League, dropping a close, well-played contest to K-25 by a score of 6-14 and losing a 0-20 debacle to Roane-Anderson.

Coach Mal Wallis' Y-12ers played bang-up ball in holding the last year champion K-25 team to a one touchdown victory at Oakwood Park Monday night of last week. But in last Thursday night's contest with the R-As the Y-12 nine failed to click on both defense and offense and saw many of their passes intercepted.

This week Y-12 was scheduled to play AEC Luckies last night and Monsanto this Thursday night at 7:15 o'clock at Oakwood Park.

League standing follows:

Team	W	L	Team	W	L
K-25	1	0	Y-12	0	2
AEC Patrol	1	0	Monsanto	0	0
R-A	1	1	AEC Luckies	0	0

Barker's Bowlers In Fourth Spot In Industrial League

The Y-12 bowling team failed to take full advantage in their match last Tuesday night with the cellar-dwelling Fairchild outfit and the one game lost against two won kept Capt. "Sky" Barker's boys anchored in fourth place in the Industrial City League. Barker was absent due to a cold, which he might have acquired by getting over-heated in shooting that record 220 game last week.

It wasn't Roy Robert's fault that Y-12 dropped that one game as Roy rolled a three-game high score of 584. An exclusive Carbide tussle is set for tonight as Y-12 takes on K-25 at the Central alleys.

League standing follows:

Team	W	L	Team	W	L
R-A	9	3	Y-12	7	5
K-25	8	4	Skidmore	3	9
AEC	8	4	Fairchild	1	11

BUREAUS ABOLISHED

Austin Peay, Tennessee governor from 1923-27, abolished some 50 bureaus and departments and placed all state activities under eight major departments.
